Skills

I am a very hands on person. I tend to learn faster that way.

I'm very respectful and a generous person.

I can work well with others and I love making new friends.

I am pretty good at talking to people, but I'm still improving those skills

Experience

Bermejo Concrete – *Apprentice*

Janet and Flavio Bermejo (owners) 808-281-0191

I would log how much each person is getting on their paychecks.

I would file her out of date work, her company bills, and sometimes her taxes.

She teaches me how the business world of owning her own company works.

Education

Kihei Charter High School–650 Lipoa Pkwy
2018-2023

I'm a Sophomore at Kihei Charter. I care alot about my education and wish to succeed in graduating, maintaining good grades.

I'll always ask for help or questions if I'm stuck or simply can't do it.

My time management has got way better over the years.

I'm a very "everything needs to be perfect" when it comes to work or presentations so i tend to work very hard.

Awards

Two awards im most proud of are

1- Most Valued Paddler; it shows that i have worked very hard for years to maintain my spot in the boat and has shown that i am committed to the club and have good relationships with my peers and coaches.

2- Most Kind Student; I got it bc i always talked with the teachers about life and i always asked how they were doing, but overall i just showed them all kindness and interest in what they had to say no matter what the topic was about.
